Support Case Turnaround

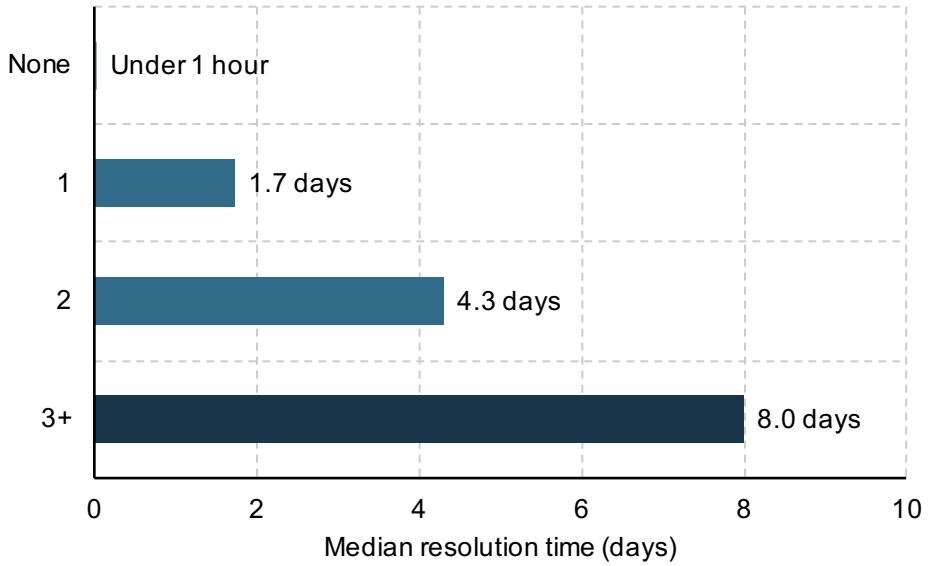
Where should service managers focus attention on long-running cases?

Turnaround times include weekends and waiting time.

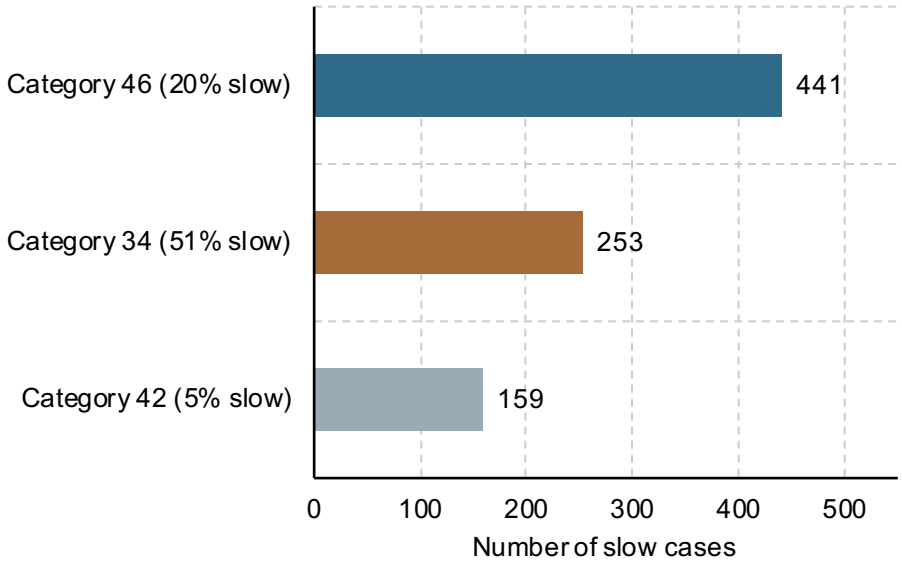
Incidents analyzed	Median resolution (days)	Median recorded closure (days)	Reassigned at least once
24,400	0.9	6.1	46%

Days from resolution to recorded closure	Slow cases in Categories 46 and 34	
5 days	30%	from 12% of cases

Resolution times rise with reassignments



Slow-case counts and percentages



IT support incidents opened March-May 2016. Slow cases take about 16 days or more to resolve.

Category numbers are anonymized service labels.
